DETAILED ACTION

The receipt is acknowledged of applicant's lds, filed 04/29/2002; preliminary amendment A, filed 02/22/2002; and power of attorney, filed 08/02/2002.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 7-16, drawn to a pressure sensitive adhesive composition comprising a rubbery continuous phase with a discontinuous phase distributed therein, wherein the discontinuous phase comprises cyclodextrin and another hydrocolloid.

Group II, claim(s) 6, 17-20, drawn to a pressure sensitive adhesive composition comprising an aqueous hydrogel, wherein the adhesive also contains a cyclodextrin.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I requires two phases one of them is rubbery and it is not an aqueous composition as required by the hydrogel of Group II, see applicant's disclosure page 3, second full paragraph and page 12, first full paragraph. The pressure sensitive adhesive of group II achieves its adhesive properties by plasticizer (aqueous composition), thus, it has only one phase and no rubbery second phase, see the specification page 6, second full paragraph.
